**PETITION FOR CORRECTION OF 371(c) DATE UNDER
37 C.F.R §1.10**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicants respectfully petition the Director under 37 C.F.R. § 1.10 to accord this application a 371(c) date of August 18, 2005 as shown as the "date-in" on the Express Mail mailing label associated with the filing of the executed Declaration which completed the 371(c) requirements for the application. The facts are set forth below.

The Response to Notification of Missing Requirements, submitting the executed Declaration for the application, was filed by Express Mail on August 18, 2005. However, the Filing Receipt and Notice of Acceptance of Application under 35 U.S.C. 371 and 1.495 indicate a 371(c) date of August 15, 2005 (**Exhibit 1**).

Pursuant to 37 C.F.R. § 1.10(c)(1), this petition is being filed promptly after the undersigned became aware of the incorrect filing date.

Attached are the following documents:

a true copy of the Express Mail mailing label (EV 613 033 851 US) showing the "date-in" as August 18, 2005, and the official notation by the USPS showing the date of deposit (**Exhibit 2**);

a copy of the § 371 Transmittal Cover Letter, Second or Subsequent Submission, filed with the number of the Express Mail mailing label (EV 613 033 851 US) which was placed on the paper prior to the mailing by Express Mail (**Exhibit 3**);

a copy of the Return Post Card as obtained from the PCT/PTO Receiving Office showing the incorrect date stamp of August 15, 2005. The Post Card identifies the application by

Application No. 10/532,164 and requests acknowledgement by the PTO of the papers filed on August 18, 2005. (**Exhibit 4**);

a copy of Track & Confirm documents from the USPS website showing the deposit on August 18, 2005, and the delivery of Express Mail EV 613 033 851 US on August 19, 2005 in Alexandria, VA (**Exhibit 5**).

In view of the attached documentation and foregoing explanation, Applicants respectfully submit that the documentation required by 37 C.F.R. § 1.10 has been presented and shows the 371(c) date, the date of filing the executed Declaration, should be August 18, 2005. Therefore, Applicants respectfully request that the 371(c) date of the present application be corrected to August 18, 2005.

The Director is hereby authorized to charge any appropriate fees that may be required by this paper, and to credit any overpayment, to Deposit Account No. 50-3218.

Respectfully submitted,

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject

matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
